# SMART HOME SHADING SYSTEMS

 **SilentGliss**

## Why Smart by Silent Gliss?

Whether at home or at work, Smart technology connects products and services such as lighting, heating and audio. Complete the picture by integrating Smart by Silent Gliss – transforming your curtains and blinds into intelligent devices.

**COMFORT**  
Avoid excessive glare by allowing the control system to open and close the blinds according to the level of sunlight throughout the day.

**FLEXIBILITY**  
Schedule your curtains to open and close at particular times of the day with the option to adjust them at any point.

**CONVENIENCE**  
Operate your window shading from the same devices that control your lights, heating and audio.

**ENERGY EFFICIENCY**  
On warm days your blinds can close automatically to help avoid overheating, or on cooler days to prevent heat loss.

**SECURITY**  
Whether on holiday or at work, your window treatments can move automatically giving the impression you're home.

**AMBIANCE**  
Pre-programmed scenes move your blinds and curtains to create the perfect atmosphere.

## Seamless two-way integration

Smart by Silent Gliss is an open system designed to integrate with leading Building Management Systems (BMS). It allows customers to choose our products in the knowledge they will integrate flawlessly with all major home control systems.

Built in, full two-way communication ensures the most complex settings, including scenes, bottom bar alignment and up-synchronization are possible.

Silent Gliss systems are compatible with:

# Smart by Silent Gliss – set your perfect scene

Pre-programmed scenes move your blinds and curtains to create the perfect atmosphere in your home whether it's movie, meal or party time!

Specific scenes can be pre-programmed so at the push of a button the blinds will adjust their position, along with the lighting and audio system settings to create the perfect environment.

# Silent Gliss – the ideal motorisation solution for any room

Silent Gliss is the leading global supplier of premium interior window treatment systems. Our cutting-edge technology and daily commitment to precision enable us to develop and manufacture bespoke systems for the world's quietest, smoothest gliding curtains and blinds. Together with Smart by Silent Gliss, our systems offer maximum ease of use.

## CURTAIN TRACKS

With over half a century of experience with electric curtain tracks we have the widest, most efficient and reliable range.

- Quiet, fast and powerful.
- Perfect for hard-to-reach, large or heavy curtains.
- Features 'Touch & Go' where a slight fabric pull will start the curtains moving.
- Wave Curtain Heading – for continuous 'wave' effect no matter whether the curtains are closed or open.

## ROLLER BLINDS

Efficient and quiet. Silent Gliss motorised roller blinds feature virtually silent operation.

- Two-way communication ensures perfect alignment of bottom bars when the blinds are moving.
- Unique up-synchronisation allows blinds of different drops to work together.

## ROMAN BLINDS

Roman blinds are an elegant window treatment which combines this classic look with our high quality components to deliver systems that operate effortlessly.

- For a soft room atmosphere through various fabrics.
- All styles of roman blinds, including soft and hard fold are possible.

## DIM-OUT BLINDS

Dim-out blind systems are ideal for domestic or commercial use in conference and AV rooms, medical areas and bedrooms and offer total room darkening.

- The fabric is 'zipped' into side profiles.
- Profiles are fixed directly to the wall or ceiling to eliminate light transmission.

## PANEL GLIDE

The concept of sliding panels originated in Japanese cultural traditions. In the 1970's Silent Gliss was the first company to successfully adapt this idea for a new, high-quality window treatment solution.

- Connected panels are perfect for today's extensive glazed areas.
- Panels can be easily removed for washing or replacing.

## COMBINED SHADING

Silent Gliss curtain tracks and blinds can be used together to:

- Provide the balance between shading and decoration.
- Offer shading whilst maximising the view.
- Accommodate different uses of a room.

# Technical summary – smart shading systems

## Fabrics – much more than decoration

The Silent Gliss Collection sets itself apart by considering both the fabric's texture and technical features. We offer a wide range of fabrics, styles and colours that balance function and design across all of our window treatment systems.

We include fabrics with special functions, acoustic performance, superior light management and environmental considerations. All of our fabrics are flame retardant and have been extensively tested on our systems to ensure consistent hanging behaviour. With such a wide choice, you can be sure to find the perfect fabric for your needs.

Over 40 colours are available for Colorama 1 and 2

Dimout fabrics for room darkening

15 screen fabrics for heat, light and glare control

Fabrics made from 100% recycled PET bottles

### SYSTEM REFERENCE

### USEFUL INFORMATION

Curtain track  
**SG 5600**

- Max width: 25m
- Max weight: 65kg
- Can be bent to 25cm (with recess profile to 50cm)
- 'Touch & Go' feature

Roller blind  
**SG 4960**

- Max width: 2.4m
- Max drop: 4m
- Max area: 9.6m<sup>2</sup>

Roller blind  
**SG 4970**

- Max width: single 3.4m / linked 6.8m
- Max drop: 5m
- Max area: single 17m<sup>2</sup> / linked 34m<sup>2</sup>

Roller blind  
**SG 4880**

- Max width: 5m
- Max drop: 12m
- Max area: 36m<sup>2</sup>

Roman blind  
**SG 2350**

- Max width: 6m
- Max drop: 6m
- Max weight: 15kg

Dim-out blind  
**SG 4760**

- Max width: 1.6m
- Max drop: 1.6m
- Max area: 2.5m<sup>2</sup>

Dim-out blind  
**SG 4770**

- Max width: 2.2m
- Max drop: 2.4m
- Max area: 5.3m<sup>2</sup>

Dim-out blind  
**SG 4780**

- Max width: 3m
- Max drop: 3m
- Max area: 9m<sup>2</sup>

Panel glide  
**SG 2700**

- Max width: 6m
- Max drop: 4m
- Uses SG 5600 electric curtain track

Metropole  
**SG 6150**

- Max width: 6m
- Max weight: 45kg
- Cannot be bent
- Uses SG 5600 electric curtain track

Assembled in the UK, Silent Gliss products are supported by an in-house technical team. Our hardware is backed by a 5 year warranty, fabrics are subject to supplier warranties which are available on request.
